

Academy of Insurance Adjusting

WE HAVE WHAT YOU ARE LOOKING FOR

We develop customized classes on client specific topics.

In order to minimize the cost to our clients, our tuition isn't a fixed fee per class. The tuition for our classes is based on the location, type of class and enrollment. The tuition for each class is posted when the class is scheduled.

Also, because we don't operate out of a limited number of fixed locations requiring expensive travel, we greatly minimize travel costs to our clients. Our instructors travel throughout the U.S. and Canada providing continuing education at a multitude of locations.

We develop our service agreements at the direction of each client so that we fit each client's specific claims needs and protocols.

WE HAVE WHAT YOU ARE LOOKING FOR

AIA provides knowledge enhancement through continuing education classes on many topics. Our continuing education classes are designed for beginners just starting out in the insurance claims industry as well as veterans looking to sharpen their skills and increase their knowledge. AIA also provides client specific classes using custom-tailored curriculum.

We have assembled a faculty of highly experienced, skilled and reputable educators to meet the demands of delivering a curriculum that is current and relevant to the ever changing needs of today's insurance industry.

Our class sizes are limited. You are not just a number when you train through AIA. We impart real world knowledge to our students and have a vested interest in their success. Our small class sizes allow for individual help and one-on-one interaction between instructor and student.

AIA serves a diverse range of clients with a multitude of class offerings. Our clients include:

- Adjusters
- Catastrophe Adjusters
- Insurance Companies
- Claims Examiners
- Government Entities
- Self Insured Companies
- Independent Adjusters

AIA doesn't operate out of a limited number of fixed locations requiring expensive travel. Rather, our instructors travel throughout the U.S. and Canada providing continuing education at a multitude of locations.

We offer continuing education on topics including:

- Adjusting Best Practices - Property and Casualty
- Policy Interpretation and Application - Property and Casualty
- Xactimate Estimating
- Scoping
- Construction
- Earthquake and Earthquake Damage Recognition
- Environmental Claims Handling
- File Reviewing
- Ethics
